

OUR POLICY ON QUALITY

Quality management is a priority in all activities of ATICA REDEX, as the commitment to society is a priority.

ATICA REDEX SL is a multi-sector purchasing and services centre (agricultural, civil works, construction, materials handling and platforms), which was created with the aim of achieving the full satisfaction of its stakeholders, through the following activities:

Gathering purchasing volumes of PRODUCTS and SERVICES and common information, in order to be able to offer better purchasing conditions.

1. AGGREGATES purchasing volumes of common PRODUCTS or SERVICES and information, with the aim of obtaining better purchasing conditions.
2. DEVELOPS the pool of SUPPLIERS.
3. ACTS as a TECHNICAL OFFICE, dealing with all kinds of queries, looking for solutions, answers and alternative ways.
4. PROMOTES THE TRAINING of its associates in the COMMERCIAL and TECHNICAL areas.

The pursuit of this objective is ensured by the teamwork of all members of the organization, who are motivated and trained to increase their professionalism and improve their quality of service.

ATICA REDEX focuses on the member. This is why one of the main daily tasks is to know and satisfy the requirements and needs of the members, to develop tailor-made solutions and to constantly strive to anticipate their expectations.

Relationships between members and suppliers are the main driver for continuous improvement, the only way to achieve competitiveness and market leadership.

ATICA REDEX is committed to comply with current and future legislation. This policy, these objectives and these actions are integrated in the documentation of the quality management system.

The management of **ATICA REDEX** strives to obtain the understanding and application of this policy by all personnel. To do so, it will provide the necessary resources and ensure its effectiveness.
